IP Stars, Trademark & Copyright Editorial 2018

Intellectual property is more than just patents, designs, trademarks and copyrights, it is often the foundation of many for building a strong business and critical assets in many more. How you define, register and protect your innovation and creativity are strategic bottom-line issues in today's market, not only in Vietnam but in a wider market, to create and maintain your competing edge. We understand the issues and can help you register, protect and use your intellectual property.

Our Team

We have a team of copyright lawyers who have a wealth of experience and knowledge, not only in the local intellectual property/ copyright laws but also in the international laws and conventions that govern the procurement and enforcement of copyrights worldwide. With those, we can assist clients in establishing, maintaining, and enforcing copyrights in Vietnam. We provide practical guidance and precision in translation and other services needed during the registration process. Rather than simply communicating problems and impediments, we create and provide clients with solutions. Above all, our team is known to be the first choice in the sector in Vietnam.
